Global Reach

A team of 15 committed and experienced consultants in Vietnam and 50+ freelancers across Southeast Asia and Nordic countries.

Superior Sourcing Strategies

Use a range of innovative sourcing solutions and interview technology to find the best talent in the local markets..

Online Advertising & Media

We guarantee prime positioning and visibility of every job in the media to ensure maximum responses and minimum days to fill each position.

Networked Industry Specialists

We employ specialist consultants who are experts on their industries. Each consultant also has a personal network of contacts from which to gauge interest and solicit referrals.

THE JOURNEY TOWARDS THE PERFECT MATCH...

We follow the process from initial contact until contract signing.

1 Search & Selection

Based on proper preparation during the start-up process, we start the initial search process. We activate our network and get in touch with relevant profiles. With many years of experience in handling confidential processes, we have continuously built a good and reliable network across industries that we nurture and take good care of. In the search process, we uncover initial interest and relevance via telephone screening.

2 Assessment & Evaluation

After screening, we invite relevant candidates for initial interviews with our experienced consultants. At the interview, motivation and relevance are further discovered. This includes personality, motivation and competency tests. We spend a full day assessing handpicked candidates in various scenarios through role-playing, case presentations, and competency-based interviews. Next, we invite all the most relevant candidates to engage in our pre-employment tests and test feedback.

3 The Final Handshake

When our clients have chosen their favourite and most competent candidate, we assist and advise on the contract to find a suitable solution for our client and candidate. We love the feeling of finding the right candidate for a great company – and we follow up closely during the probation.
